Anatomy.tv – Global Search

A brief guide to help orientate you to our new Global Search feature.

1. The Global Search button only appears when there is at least one title in the product tab which has searchable content.

2. For example, the Global Search button does not appear on the Anatomy & Physiology tab, which currently has its own separate Search function.
Titles currently included in global search are:

- **3D Atlas**: all titles
- **Functional Anatomy**: all titles (excluding Sports Injuries Series)
- **Imaging**: all titles
- **Clinical Specialties**: all titles (excluding: Audiology, Head and Neck: Pediatric Comparisons)
- **Therapy**: Anatomy Trains, Massage and Manual Therapies
