

# HOW-TO GUIDE

## ABOUT MEDCRAM

MedCram medical illustrations allows for greater understanding of key concepts in less time. They prioritize the most important information for exam preparation and clinical practice.

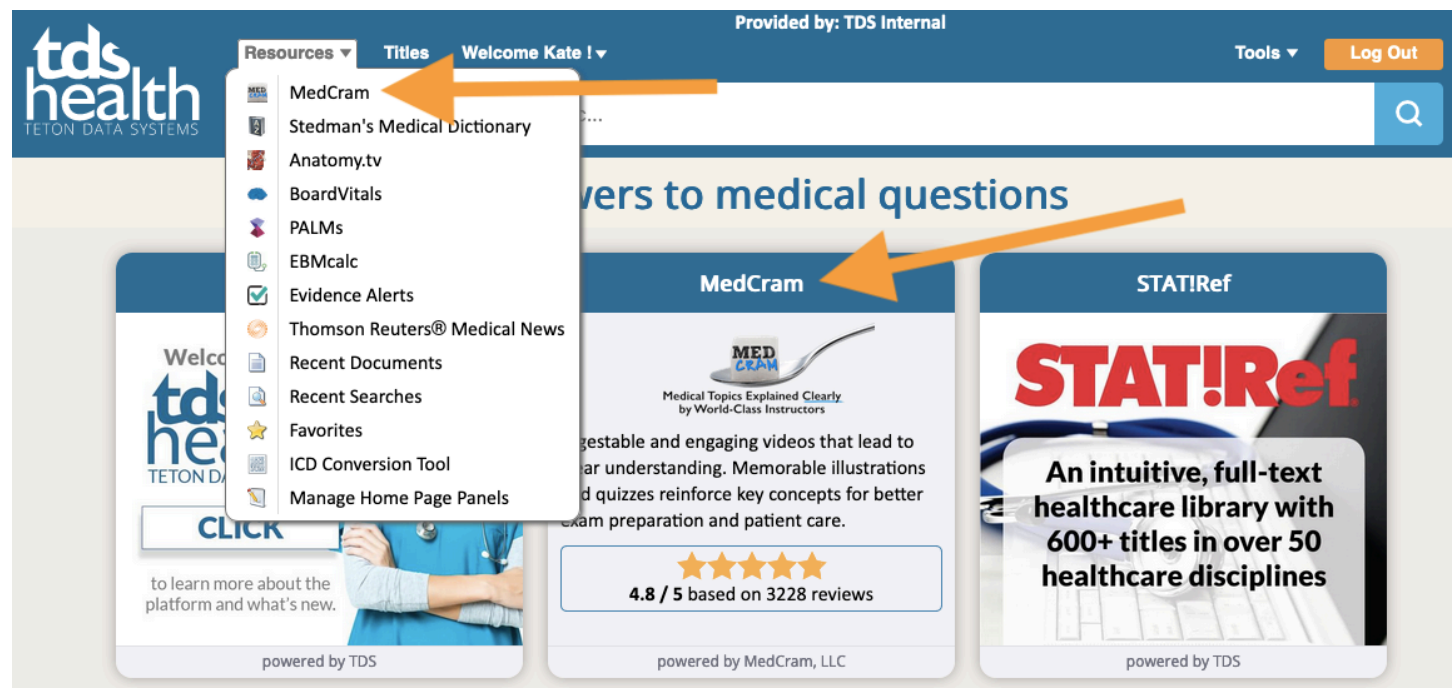

MedCram lecturers Dr. Seheult and Dr. Jacquet are renowned instructors with the experience and skill to take your medical understanding to the next level. MedCram believes that medical slides over-packed with information should be a thing of the past.

Simple medical diagrams and animations lead to better understanding and retention.

Learn how to access this resource by following the instructions below, or ask your program director or librarian for more details.

## HOW TO ACCESS

Access your institution's TDS Health subscription as you would normally. If not done so already, you need to login to your Profile account to access MedCram. If you have already created your personalized Profile account and you are logged into that account, you will find the MedCram product panel on your TDS Health homepage as seen below. MedCram can also be found under Resources above the search box.

If you do not see the MedCram product panel, follow the instructions to create a Profile account.

# CREATE A PROFILE ACCOUNT

If you do not have a Profile account, click Profile on the upper right hand corner above the search bar. Click Register and enter your personal information. Click the checkbox next to "Remember me on this computer (uses cookies)." You should then see the MedCram product on the TDS Health homepage after creating your Profile account.

# VIEW YOUR COURSES

Once you click into MedCram, click the Open MedCram button and you will be taken to the MedCram enrollment page where you can access the courses you have enrolled in.
